

GET THE FACTS

New York

Cannabis is now legal for people 21+

STORE CANNABIS PRODUCTS SAFELY.

Always keep your cannabis products locked, out of sight, and out of reach to prevent accidental consumption by young people and pets.

LICENSED CANNABIS PRODUCTS WILL HAVE THESE THREE COMPONENTS ON THEIR LABEL

A QR code or link to a website will also be available with details on the product's lab testing.

Call the Poison Center at 1-800-222-1222 if you think someone has been accidentally exposed to a cannabis product or consumed too much. Call 911 if the person is showing signs of an emergency.

For cannabis addiction support, call 1-877-8-HOPENY (467369) or Text HOPENY (47369)

SCAN TO IDENTIFY A LEGAL DISPENSARY

Look for the QR code on the outside of licensed cannabis businesses. Your purchase supports investments in communities across New York.

Scan here to report concerns about a cannabis product or business.

START LOW & GO SLOW.

Licensed cannabis products come in many different forms and potencies (or strengths). Whether you're new or a frequent cannabis consumer, **START LOW** consuming less than the recommended serving size and **GO SLOW**. It may take up to two hours to feel the effect.

BE MINDFUL WHEN SMOKING.

Keep it away from others. Remember, you cannot smoke or vape cannabis inside a motor vehicle, a private business, a hookah or "cigar bar," or any place where smoking is not allowed.

DON'T DRIVE WHILE HIGH.

If you feel different, you drive different. Driving under the influence of cannabis is illegal. Be safe and responsible - make a transportation plan before you consume cannabis.
